

**LIFESTYLE NEWS**  
GET WHAT YOU  
WANT OUT OF LIFE

## SPA AND PARTNERS

WHETHER you're in the market for sleek brows or a relaxing massage, or something a little more hard-core, Zen Lifestyle is taking the whole urban spa concept to a new level. As well as the usual beauty and spa treatments we've come to expect, the newly opened salon on Edinburgh's Hanover Street will specialise in advanced skin treatments, from Dermalroller and botox

to skin peels, cellulite reduction and fillers. There will be a permanent make-up service, not to mention specialised medical cosmetic services on offer through the clinic's partnership with London lip queen Dr Rita Rakus. Even more exciting are the advanced procedures with names like Thermage and Fraxel, which sound more like enemies of

Superman than something you would inflict on yourself. Kryptonite at the ready, people.
